

This We Believe...

- **We will foster the whole child in an ever-changing world, respecting the variety of physical, social and emotional changes and influences.**
- **We are facilitators who help students learn to interact with content material in creative ways using higher level thinking skills that can be applied and transferred to other areas.**
- **The essential attributes of middle school education help develop skills, strengths, and interests that lead to vocational, social, and personal satisfaction.**

We Are Shiloh Middle School
