

Hiding Purchased Items on Apple TV

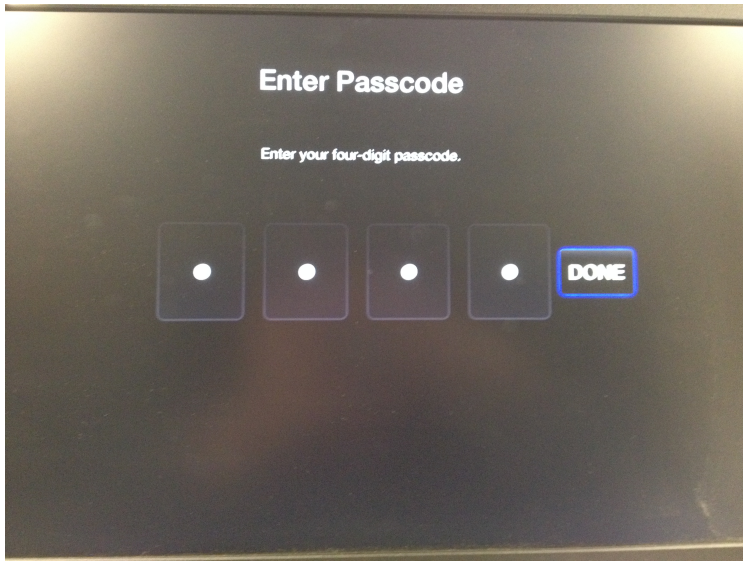

Click on Settings on the Home Screen:

Click on General on the Settings Page:

On the General Page, click on Restrictions and Change the field on the right to ON. You will need to enter a Passcode. Choose something you will remember easily. If you forget the passcode, the Apple TV will need to reset by DIS.

You will be prompted to RE-ENTER the passcode.

On the RESTRICTIONS page, you can turn off purchases and rentals (this is where possibly offensive content may be shown) by selecting HIDE next to Purchases and Rentals
